Aïcha Imène DAHOUMANE

Salesforce Developer & Consultant · Systems & DevOps background

Pitch

• I build secure, scalable Salesforce solutions and automation that teams actually adopt.
• Strong engineering discipline: documentation, testing, CI/CD and clean delivery.
• Comfortable across platform, integrations, and IT Ops/DevOps foundations.

Key skills

• Salesforce (Apex, LWC, Flows)
• Integration (REST, APIs)
• CI/CD (GitHub Actions, SFDX)
• Security & best practices
• Systems/Networks & DevOps

Featured projects

• **Salesforce deployment with Heroku (Legarant■AXG)**
   Release process, environments, tests, production rollout.
• **Apex backend development (iDEM Connect)**
   Triggers/services, batch/scheduler, test coverage.
• **Incident handling with RMM & security tooling**
   Triage, remote remediation, security platform workflows.
